

# Mini-Vise

## Tag and Small Part Vise

The mini-vise is designed to streamline your nameplate and tag marking operation using a precision vise that supports and gently clamps and holds down your product during the marking operation.

Available in three sizes: MV-44 (4"x 4") • MV-64 (6"x 4") • MV-66 (6"x6")

### Features

- Low profile jaws with angular surface to force work piece "down" as well as clamped
- Precision ground tool steel construction
- Ideal for holding awkward small machined parts
- Great for clamping and supporting name tags and small parts
- Mounts directly to the Kwikmark base plate or T-Slot Table
- Ergonomic twist knob clamping provides sufficient holding force
- MV-66 features quick release lever for coarse adjustments
- Ideal for delicate aluminum tags
