

PS-10

Porta-Stand

The porta stand attachment will convert your Kwikmark into a portable marker. No control box or PC required. Use of all standard functions and controls and a 6" x 4" marking area.

Features

- Aluminum frame construction; Mounts standard Kwikmark marking head
- Adjustable foot positions to accommodate most support applications
- Micro-adjustable height mechanism to compensate for shortened (resharpened) marking pin
- Comfortable rubber handles; Adjustable angles for ergonomics
- Stable wide footprint for greater stability
- Full length T-Slot legs simplify adding custom pads, clamps, magnets, etc
